Education

Indian Institute of Science (IISc) — Bengaluru, India
M.Tech. (Research) in Electrical Engineering — 2026–Present
Advisor: Prof. Prasanta Kumar Ghosh (SPIRE Lab)
GATE 2026 (Data Science and AI): AIR 362/69,242 (top 0.5%)
Publications: [1]

- Proposed a CTC training criterion with token-level wildcard arcs that tolerates localized transcription ambiguity (pronunciation, spelling, lexical variants), achieving a **9.45% average relative WER reduction over CTC** across multiple languages and corpora [1].

National Institute of Technology, Patna — Patna, India
B.Tech. in Electronics and Communication Engineering — 2016–2020
GPA: 7.42/10.00

Experience

SPIRE Lab, Indian Institute of Science (IISc) — Bengaluru, India
Research Associate — July 2021–July 2026
Advisor: Prof. Prasanta Kumar Ghosh
Projects:

- **RESPIN**: *Speech Recognition in Agriculture and Finance for the Poor in India* (funded by the Gates Foundation)
  Publications: [2]–[7]
  - First author of the RESPIN-S1.0 database paper published at **NeurIPS 2025 (Datasets and Benchmarks Track)**; led large-scale data curation, reproducible benchmarking, and baseline ASR development across nine Indian languages [2].
  - Developed a multimodal fusion model for joint ASR and dialect identification (DID) (**4.65% CER and 81.63% DID accuracy**), integrating speech and text embeddings for Indian dialects [4].
  - Led the first large-scale study on DID in Indian languages (**79.81% accuracy across 33 dialects**) [5].
  - Enhanced low-resource ASR via adapter-based domain adaptation, reducing **WER (10%-30%)** and **CER (3%-18%)** across 9 languages [6].
  - Proposed a Gated Multi-Encoder ASR model with frame-level gating, reducing **WER by 7.5% (Bhojpuri) and 9% (Bengali)** [7].
- **SYSPIN**: *Text-to-Speech Synthesizer in Nine Indian Languages* (funded by GIZ, Germany)
  Publications: [8]
  - Developed a data filtering pipeline using Kaldi-based ASR models, improving corpus quality.

ARTPARK @ IISc — Bengaluru, India
Machine Learning/Signal Processing Consulting Engineer — Sep 2022–July 2026
Project:

- **VAANI**: *Capturing the language landscape for an inclusive digital India* (funded by Google)
  Publications: [9]
  - Developed automated signal processing and machine learning pipelines for acoustic quality assessment, speech activity detection, and metadata validation.
  - Established quantitative acceptance criteria and automated corpus curation protocols underpinning the open-source release of **31,000+ hours** of speech from **156,000+ speakers** across **109 languages** and **31 states and union territories**.

Department of ECE, NIT Patna Patna, India
Undergraduate Student Researcher July 2019–June 2021
Advisor: Dr. S. Shahnawazuddin
Publications: [10], [11]

- Investigated formant-modification and bispectrum-based front-end features to improve children's ASR under zero-resource conditions [10].
- Developed a CGAN-based voice conversion framework, transforming adult speech into child-like speech for ASR adaptation [11].

EICT Academy, IIT Guwahati Guwahati, India
Summer Intern May 2019–June 2019

- Designed Verilog code for a 5-stage discrete wavelet transform cascade filter bank for FPGA-based simulation.

Professional Service

Reviewer:

- **Conferences and Workshops:** ICASSP (since 2025), IJCNN (since 2025), IEEE ASRU 2025, Interspeech (since 2026), IEEE SLT 2026.
- **Journals:** Computer Speech & Language (Elsevier), Speech Communication (Elsevier).

Organizer:

- **ASRU 2025 (MADASR 2.0):** Lead organizer of the Multi-Lingual Multi-Dialect ASR Challenge in 8 Indian Languages; designed challenge tracks, evaluation protocols, public leaderboards, developed ESPnet-based baseline systems, and reviewed challenge track submissions.
- **ICASSP 2024 (LIMMITS'24):** Co-organized session on Indic TTS, developed baselines, and reviewed challenge track submissions.
- **ASRU 2023 (MADASR):** Led data curation, ASR baselines for Bengali, Bhojpuri.
- **Interspeech 2022 (Gram Vaani ASR):** Organized Hindi ASR challenge, developed Kaldi baselines.

Student Volunteer: ICASSP 2024, ICASSP 2025.

Awards

SLT-CODE Hackathon Winner 2022 – Won **Best Hackathon Project** Award for developing dialectal ASR systems for Bengali and Bhojpuri, presented at **SLT 2022**.

Languages and Skills

- **Programming:** Python, Bash
- **ML/DL Toolkits:** PyTorch, Scikit-learn
- **ASR Frameworks:** ESPnet, Icefall, Kaldi, Fairseq
- **Tools:** MATLAB, Audacity, Praat, Git, Hugging Face, Linux, Docker, LaTeX
- **Languages Spoken:** Bhojpuri, English, Hindi, Maithili
